ABOUT ME

Hello
I know you are looking for someone who works professionally and skilled in the field and here I am
I have worked hard to become a skilled front end developer who works under pressure and does my best to reach the required quality and professionalism and I have trained a lot in this matter and now I am ready to work anytime anywhere
Thank you

WORK EXPERIENCE

Front-End Developer

ChatixPro

March 2021 - August 2022 / Remote

- I worked here as a front-end developer, and some of my tasks were tomerge pages, modify some things in the platform, and add new pagesto it. Create external pages that can be accessed through the platformeasily

PROJECTS

Ecommerice Website in React

React

- It is an online market that simulates the Amazon market, but with a different shape and treatment
- dreamy-beijinho-e1fa14.netlify.app

Weather app

React

- This project is based on the idea of an API, fetching data, displaying the weather of any country being searched, displaying the state of the sky if it is clear or not, and displaying the temperature with more than one unit of measurement.
- react-weather-app111.netlify.app

Taxi Admin Dashboard

React

- It is a project that simulates the shape of the control panel, for example
- Taxi rental site control panel
- Here, I learned how to control the libraries and how to put data on them and display them in an easier and faster way
- react-admin-dashboard111.netlify.app

Calculator

HTML, CSS, JS

- It is a program that does some simple arithmetic
- The project includes some animations that give a more aesthetic look
- calc-letor.netlify.app

Facebook Clone

React

- It is a program that simulates Facebook pages, navigation methods, and others
- tiny-souffle-d0d454.netlify.app

Dashboard

React

- It is a control panel for the user and knowledge of sales and purchases, as well as the members involved with him
- friendly-peony-a0d12f.netlify.app

Food Website App

React

- It is a program that is a restaurant that sells fast food and delivers it to homes
- bejewelled-gingersnap-8fb371.netlify.app/

Online Education & Learning

React

- It is a site that simulates academic courses sites such as udemy and other courses sites
- keen-baklava-094a4a.netlify.app

Portfolio

React

- It is a biography. I put my skills in it and some projects I didn't put here. It also contains social media and some information about me that you can see
- taha-portfolio-12.netlify.app
